Doug:

Milwaukee County's document production thus far has not included any videos. Based on the litigation in Martin (See TERRY19999), cameras exist in the Milwaukee County infirmary. Can you please confirm that you have attempted to obtain any video from March 9-10 in the infirmary, booking areas, or hallways leading to and from those areas?

Separately, the infirmary log we have for March 9-10 (MKE COUNTY179) starts and stops in the middle of the shift (going from 1:33-4:40). Please provide the log for the entire shift that Wenzel worked on that date.

Thanks,

Tess
